

CALL FOR ABSTRACTS

Symposium on Housing Research in BC
November 18-20, 2018, Vancouver BC

The Pacific Housing Research Network (PHRN) facilitates multi-sectoral housing research activities across BC and fosters dialogue and collaboration among housing researchers and stakeholders to encourage the effective application of research results to housing solutions. The purpose of the Symposium is to encourage multi-sectoral networking and discussion of housing issues, to announce opportunities, to present research results, best practices and ongoing projects, to get input on research that is underway, and to determine housing research priorities. The Symposium will include **research presentations, panel discussions, research posters and networking opportunities.**

The PHRN research symposium will be embedded in the Housing Central Conference, November 18 – 20, 2018, at the Sheraton Wall Centre (1088 Burrard St, Vancouver BC). The Conference is organized by the BC Non-Profit Housing Association with the Co-op Housing Federation of BC and the Aboriginal Housing Management Association and is the largest affordable housing conference in Canada. For more information about the 2018 conference, please visit bcnpha.ca.

At PHRN we are seeking housing research and examples of promising practices from community-based practitioners, academics and government researchers from across housing sectors (i.e., policy, technical, cultural, health, social services, political, economic, social) who will help draw the connections between research and practice. We also encourage graduate and senior undergraduate students at post-secondary institutions across BC to submit their research.

Research may be in (but is not limited to) any housing research area related to:

- Affordable housing
- Social Inclusion
- Indigenous housing
- Technical/green practices
- Data and measures
- Housing Policy

Abstracts must be submitted by: **May 1, 2018.** See next page for submission details
